a higher level of connection

Internet Services and Technology for MDUs

Providing a higher level of connection for apartments, condos, student housing, senior living, military housing, and other MDU properties since 2003

Managed WiFi for Multifamily

Whether you're managing apartments, student housing, or senior living communities, we deliver high-speed, secure, and fully managed WiFi that actually works — and keeps working.

Let a trusted partner handle it all — from network design and installation to ongoing monitoring, maintenance, and support.

- Custom-designed networks
- Property-wide, "follow me" WiFi
- Flexible bandwidth options
- 24/7/365 guest and staff support
- Real-time monitoring
- Expert maintenance services

MDU Security Systems

Keep your community safe with surveillance solutions built for multifamily properties — tailored to your layout, scalable to your needs, and easy to manage from day one.

Our top-of-the-line camera systems are delivered with:

- Full support: equipment, installation, and monitoring
- Industrial-grade components built for multifamily
- Night vision, zoom, and stationary options
- Waterproof and vandal-proof hardware
- 7–10 year warranties

IN THE WRONG HANDS, THE LATEST TECHNOLOGY MEANS NOTHING

There's a reason property managers and developers wish they'd found us first. We bring the most advanced technology available — human intellect, judgment, and foresight. When other providers go silent after installation, we're there for you for the long haul.

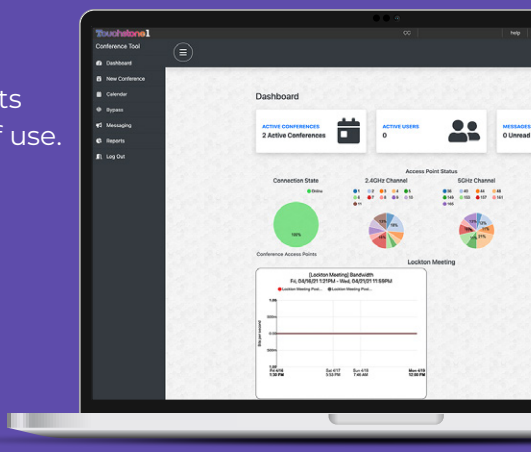
The Fusion Platform

Our next-generation platform is designed to replace six or more components with a single intelligent platform built for security, performance, and ease of use.

- Industry-leading cybersecurity protection and threat detection
- Simplified online traffic load balancing
- Bandwidth tiered service options
- Enhanced content filtering
- DHCP server authentication
- Built-in fleet manager



Fiber and Cabling

Our certified technicians have both the dedicated experience and the resources to guarantee a high quality, yet cost-effective cabling installation that always delivers expected results.

Bandwidth Circuits

Whether you require 100 Mbps or 10 Gbps of network bandwidth, we can provide the resources and services you need to always make high-speed, reliable, and secure internet access a guarantee.

Other MDU Solutions

- **Life Safety**
- **Commercial TVs & Satellite**
